## PROFILE

Statistics with Computer Science graduate from the University of Ghana who builds, tests and explains software. Built ShopTally, a React, FastAPI and MySQL app that reconciles mobile money payments against shop sales, a React and TypeScript class planner with 26 parser tests, a Java inventory system and a Python pipeline that forecasts Ghana's COVID-19 cases 28 days out, and builds every day with Claude Code and the Claude API. Spent ten months at CodeRaccoon as an SAP S/4HANA Cloud consultant and course builder, led beta testing of the AmbionCraft learning platform and became team lead.

## SKILLS

**Programming:** Python, JavaScript, TypeScript, Java, SQL, C++ (coursework)

**Web:** React, Next.js, Tailwind CSS, HTML, CSS, Three.js, Vercel

**AI:** Claude Code, Claude API, Model Context Protocol (MCP), prompt engineering, n8n automation, ChatGPT, Gemini

**Data:** Python data analysis, time series forecasting, statistics, data visualisation, Excel (lookups, PivotTables, automation), Power BI

**Databases:** MySQL, MongoDB, Odoo

**Testing:** Manual test cases, beta and user testing, UI/UX and AI testing, unit tests

**SAP and learning:** SAP S/4HANA Cloud in Fiori (Source-to-Pay, Lead-to-Cash, Record-to-Report, Recruit-to-Retire), Articulate Rise 360, Assima

**Tools:** Git, GitHub, Figma, Microsoft Office (Word, Excel)

## EXPERIENCE

**SAP Consultant and Educational Content Creator (Team Lead)** | CodeRaccoon, Accra — Nov 2025 to Aug 2026

- Built e-learning courses and live software simulations in Articulate Rise 360 and Assima for internal and client training, including a 12-module Excel course built around a running retail scenario, with its own brand, logo and audio narration.
- Led software, AI, UI/UX and beta testing of the AmbionCraft learning platform: wrote and ran manual test cases, logged defects and reported usability findings to the developers.
- Worked through SAP S/4HANA Cloud end-to-end processes in Fiori (Source-to-Pay, Lead-to-Cash, Recruit-to-Retire, Record-to-Report) on the IEE2E programme with Brandenburg University of Applied Sciences.
- As Team Lead, trained the team in prompt engineering and ran timesheets and status reports on automated Excel trackers.

**Database Management Intern (Odoo)** | NextIT Consult, Accra (hybrid) — May 2025 to Aug 2025

- Maintained the company's business database in Odoo: data entry, record updates and data warehousing.
- Supported staff with day-to-day digital and operations tasks.

**Freelance Web Developer** | Upwork, Remote — 2023 to 2024

- Pitched for client website projects on Upwork and built sites to each client's brief.

**IT Intern** | KNG (Knowledge Network Group), Accra — Oct 2023 to Nov 2023

- Trained in Java and object-oriented programming, then assisted on software development tasks and team project improvements.

## PROJECTS

**ShopTally** | React, TypeScript, FastAPI, MySQL, Docker — code

- Stock, sales and mobile money reconciliation app for small shops: records sales that can never oversell, reads a MoMo statement CSV and pairs every payment with a sale, then flags missing, short, duplicate and unexplained payments.
- Python FastAPI REST API with JWT auth and shop-scoped queries on MySQL; React and TypeScript front end; 39 API tests run against a real MySQL service in GitHub Actions; the full stack runs with one Docker Compose command.

**Class Planner** | React, TypeScript, Vercel — live · code

- Timetable and assignment app for statistics students: a forgiving Excel and CSV importer, a next class countdown, a week view and an assignment tracker. 26 unit tests cover the timetable parser.

**Forecasting COVID-19 Cases in Ghana** | Python, time series (final year project) code

- Reproducible pipeline: data cleaning, EDA, STL decomposition and stationarity tests, then Holt-Winters and autoregressive models giving 28-day forecasts with prediction intervals, checked with rolling-origin cross-validation.

**Java Inventory System** | Java, Swing, OOP code

- Desktop stock manager for a small shop with layered OOP design (model, service, storage, UI), stock movement history, low stock alerts and CSV autosave. 9 unit tests, no external dependencies.

**AI Tutoring Apps** | React, Claude API, Claude Code try them

- Three learning apps built for a friend, including a 12-unit AI and prompt engineering course that runs Claude live as the tutor, with a prompt coach, reflections and a completion certificate.

**Brand and Website Work** | Next.js, Three.js, Figma Lizab · Glee Garden

- Lizab House of Fashion (brand and a Three.js site for a family fashion house), Glee Garden (logo, palette, planting guide and booking flow) and a University of Ghana hall website designed in Figma.

## EDUCATION

**BSc Statistics with Computer Science** | University of Ghana, Legon 2022 to 2026

- Relevant coursework: data structures and algorithms, databases, programming in Python, Java and C++, statistical modelling and time series.

## CERTIFICATIONS

- **Anthropic Claude Academy (2026):** Claude Code in Action, Claude Code 101, Introduction to Model Context Protocol, AI Fluency: Framework and Foundations, Claude 101, AI Capabilities and Limitations, Introduction to Claude Cowork, Building Effective Human Agent Teams
- **SAP S/4HANA Cloud End-to-End Business Processes (IEE2E),** Brandenburg University of Applied Sciences (2026)
- **AI Starter Kit,** ALX Ghana (2025), grade 100 · **Prompt Engineering,** Udemy (2025)
- **Intercultural Training for IT Professionals,** AHK German Industry and Commerce in Ghana (2026)
- **Course Creation,** CodeRaccoon (2025) · **Front-End Development Fundamentals,** SoloLearn (2022)

## VOLUNTEER AND LEADERSHIP

**Facilitator, AI and Coding Session** | NextGen Youth Movement, Teens Conference 2026

- Ran the AI and coding session for teenagers and received a Certificate of Appreciation from the Executive Director.

**Volunteer IT Support** | Church, family and friends, Accra Ongoing

- Set up and fix laptops, connect and troubleshoot Wi-Fi, routers and printers, and sort out email and account access.

**Volunteer Database Assistant** | Ideal Market (supermarket), Accra Sep 2022 to Dec 2022

- Set up and managed the store's Odoo databases for inventory tracking.

**Liaison** | Raising Beautiful Flowers (RBF) Jan 2025 to Apr 2026

## LANGUAGES

English (fluent) · German (A1 and A2 certificates)
